

INTIMIDATOR™ 20XP

20" Capacity Whole Tree Chipper

Bandit's most compact drum-style whole tree chipper doesn't skimp on power or production. With a 24-½" by 26-¼" throat opening, and engine options exceeding 300 horsepower, this unit can **easily handle larger limbs and even whole trees** in a landclearing or right-of-way cleaning operation.

SUPERIOR PRODUCTION

Bandit whole tree chippers feature Bandit's unique infeed system, which combines to create one of the easiest feeding chippers on the market. The Fish Mouth infeed design guides material toward the infeed rollers, and the powerful feed system keeps operators busy feeding the machine instead of repositioning material.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand the rigors of chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

BUILT FOR YOU

Every Bandit chipper is built to order, with multiple options to fine tune your chipper for your job. Choose an engine, infeed drive systems, remote options, loaders and drum options, and get the chipper you need.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless of the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

GO-ANYWHERE TRACK MOBILITY

A Caterpillar steel track undercarriage can be added to the Intimidator™ 20XP. This feature allows it to travel over rough terrain not accessible by towable units. It also eliminates the need to forward or skid material to the chipper – the operator can take the chipper to the trees.

DIMENSIONS

Capacity:	20" Capacity	50.8cm Capacity
Opening:	24.5" x 26.25" wide	62.3cm x 66.7cm wide
