

MODEL 3590XL

36" Capacity Whole Tree Chipper

The Bandit® Model 3590XL is the **most productive whole tree chipper** on the market. It features a 36-inch by 48-inch throat opening, behind which lies a massive 48-inch diameter chipping drum. The **aggressive five-wheel feed system** and 7.5 foot infeed conveyor helps pull in even the largest whole trees and bundles of logs. Simply put, the 3590XL is capable of filling packing chip trailers in mere minutes while using less fuel, saving operators money.

SUPERIOR PRODUCTION

The Model 3590XL is capable of packing more chips into each trailer faster than any of its competitors. The wide throat opening means more material can be fed, and the standard 7.5' infeed chain quickly conveys material to the infeed, and the powerful feed system means operators won't have to help material into the chipper – once the machine has it, it won't let it go, so operators can focus on getting their next gapple load of material to chip.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators. The 3590XL is no exception!

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand the rigors of chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

BUILT FOR YOU

Every Bandit chipper is built to order, with multiple options to fine tune your chipper for your job. Choose an engine, infeed drive systems, remote options, loaders and drum options, and get the chipper you need.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

UNMATCHED RELIABILITY

At the heart of the Model 3590XL is Bandit's legendary chipping drum. Bandit drums are constructed with oversized shafts and bearings, thick skins made with wear-resistant material, and a rigid internal baffling system that makes them virtually indestructible. These drums, along with the use of high quality materials, industry standard components and extensive welded construction, serve as the foundation for Bandit's proven reputation for durability and reliability. They're also the basis for Bandit's five-year GUTS warranty that covers the drum, feed systems and related components.

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.
