

MODEL 2590

22" Capacity Whole Tree Chipper

Bandit's **most popular whole tree chipper** is the Model 2590. Officially rated as a 22" capacity whole tree chipper, the Model 2590 actually has a 26.25-inch by 30-inch chipper throat opening so it easily handles large whole trees, tops, and logging slash. It features Bandit's **unique Slide Box Feed System**, and is available with a dedicated micro chip drum for biomass applications. Depending on engine options, the Model 2590 can fully load chip trailers in 20 minutes – without the need for auxiliary chip throwers.

SUPERIOR PRODUCTION

The model 2590 is capable of producing one ton of chips every minute because of Bandit's powerful feed system and horsepower options. The wide throat opening means more material can be fed, and the standard 7.5' infeed chain quickly conveys material to the infeed.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand the rigors of chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

BUILT FOR YOU

Every Bandit chipper is built to order, with multiple options to fine tune your chipper for your job. Choose an engine, infeed drive systems, remote options, loaders and drum options, and get the chipper you need.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

OPTIONAL CAB & LOADER

Bandit offers an optional cab and loader on the Model 2590 to make this machine the ultimate all-in one machine. Operators have an exceptional view of the action from the cab mounted above the chipper, and intuitive controls help even new operators feel like pros in no time. And when the work is done, these cabs fold down for transport!

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.
