

MODEL 3090

24" Capacity Whole Tree Chipper

Featuring a powerful five-wheel feed system, the Model 3090 takes Bandit's unique **Slide Box Feed System** to the next level of power. This high-volume, 24" capacity chipper features a 30" by 36" throat opening, allowing it to pull in, crush and compress whole trees and forked branches with ease. It's available with a standard or micro chip drum for biomass applications. Depending on engine options, the Model 3090 can **fully load chip trailers** in under 20 minutes without auxiliary chip throwers, and the clean feed system keeps your chips off the ground, **increasing yield by about 5%.**

SUPERIOR PRODUCTION

The model 3090 is capable of producing over one ton of chips every minute because of Bandit's powerful feed system and horsepower options. The wide throat opening means more material can be fed, and the standard 7.5' infeed chain quickly conveys material to the infeed.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand the rigors of chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

BUILT FOR YOU

Every Bandit chipper is built to order, with multiple options to fine tune your chipper for your job. Choose an engine, infeed drive systems, remote options, loaders and drum options, and get the chipper you need.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless of the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.

GO-ANYWHERE TRACK MOBILITY

A Caterpillar steel track undercarriage can be added to the Model 3090. This feature allows it to travel over rough terrain not accessible by towable units. It also eliminates the need to forward or skid material to the chipper – the operator can take the chipper to the trees.

Bandit Offers a Complete Line of Tree Care Equipment:
Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
The Beast® Horizontal Grinders • Track Carriers • Attachments
